

## Elwy Solar Energy Farm local information days

New solar farm proposal near St. Asaph

Solarcentury is one of the UK's leading solar power companies. We are currently evaluating land to the north west of St. Asaph for the development of a new solar farm. We intend to submit a formal planning application for Elwy Solar Energy Farm later this year, but before we proceed we'd like to share information with the local community.

In March 2020 we are holding two local information days. We look forward to meeting you there.
